## Mixed Media Studio Rules

We are asking your help to make this room function as a space to work for all of you. Due to the limited storage space we have a few rules that hopefully will help:

- Do not block door grill at rear of studio this restricts air flow to the air conditioner and damaged it.
- Take finished work home; Shelves are only to be used for works in progress.
- Do not store materials in the classroom; you may rent a locker for this purpose.
- Do not store works anywhere but in designated areas
- Do not work larger than what can be stored in designated areas
- Please handle all works in the room carefully as not to damage anything.
- Cover tables with newspaper or similar when working.
- Clean your working space before leaving. All garbage must be thrown out and materials on the floor should be swept up.

Thank you,  
Administration
